Dr. Henlerson alias McLeod was arrested last hight as she was about to take the northbound train at the Union Depot on a warrant issued by Mayor Holt, of Waverly, charging him with unlawfully medicines unknown to Mrs. S. B. Spratley, at Waverly, and, while the latter was unconscious from their effects, unlawfully and feloniously breaking and entering her trunk and stealing about \$90 in the woman was taken to the Police Sta-Hon, followed by a large crowd of curi susly-inclined people, where she was kept She gave her age as 40 years, her business as a doctor of medicine, and said she was m the State of Vermont. She said she had practiced medicine for the last eighteen years, and denied most emphatically that she had committed any crime a Waverly, expressing her willingness to waverly, expressing her willingness to go back to that place and stand the most critical examination. Between 12 and 1 b'clock this morning Constable Grammar, of Waverly, arrived at the station-house and identified the prisoner as the woman wanted at that place for the crime mentioned in the margantic place. tioned in the warrant.

MEROIC TREATMENT. Constable Grammar made the following statement relative to the case:
"Dr. Henderson alias McLeed arrived in Waverly on Wednesday and put up at the hotel. She said that she was from Rich-mond, and came down to Waverley to attend a patient; that she was the trusted assistant of Dr. Hunter McGuire, of Rich-mond, and was always sent by him to look after such cases as he himself was unable to attend to. She seemed well sup-plied with money-in fact, exhibited a large roll of money at the hotel. While there she was asked what was the patient's name that she was attending, but declined to tell, saying that that was a t after breakfast vesterday morn

"Just after breakfast yesterlay more ing Dr. Henders's allas McLeod, in conversation with Mrs. S. B. A negro girl followed them, but as soon as the decier got in-side the chamber she holed the door. The negro was determined to see what a chair and looked over the transom. There she saw the Doctor pour something out of a vial and force it down Mrs. Spratiev's mouth after which she laid

I will not alarrived at Waverly, and the Doctor, with the remark I am going to Petersburg to get some medicine for Mrs. Spratley,' left the room and boarded the train."

Constable Grammar says efforts were at once made to arouse Mrs. Spratiey, and the local physician at Waverly being absent, Dr. Devisiy, of Ivor, and Dr. Beard were telegraphed for.

EXCITEMENT AT WAVERLY, Constable Grammar brought a letter rom Mayor Holt to Chief-of-Police Per-juson, in which the Mayor says: "I do of think it would be advisable to bring br. Henderson down to Waverly at present, as the citizens of our usually quiet village are wrought up to fever-heat against her, and I could not prevent violence being done her, and ask that you keep her in the jall in your city until the

Constable Grummar further said that Constable Grammar further said that from what he heard when he left Waverly he was confident that the woman would be harshly dealt with, if not lynched, if carried to Waverly to-day. He further stated that the physicians in attendance upon Mrs. Spratley were confident that she had been given poison, besides helps chloroformed. eldes being chloroformed.

ALLEGED COUNTERFEITER AR-RESTED. Police-Officer Richardson this afternoon arrested a nearo man, who gives his name as John Jones, on the charge of passing counterfeit money—a very bad imitation of silver dollars. Upon his person was found a plaster mold for making half and quarter dollars. Jones claims to be a resident of Petersburg, but nobody here knows him. A lot of counterfeit money knows him. A lot of counterfeit money was taken from his person. He is in jail

WANTED NO "PER" IN HIS. Among the recent applicants for a po-lition on the rine of the Petersburg Base-Ball Club was a gentleman in the North, whose hame is withheld, who is known to whose name is withheld, who is known to have played with several prominent clubs during the past several seasons. The one expressed domand he made of the Petersburg club, in the event of the acceptance of his application, was that the contract should read: So much a morth, and not so much per month, for his services. The place he applied for had been filled before his application was received, and he was so notified, but in this notification he was sarked as a favor to explain why he desired the contract to be written so much a month, instead of so much per month. In his reply he explained that a salary a month meant so much for the month; that a salary per month has a very disferent signification, as he had found out to his cost—per meaning in base-ball contracts. The construction of the word he had lost over \$50 in one month, and he did not want to suffer in that way again.

The Easter music in our churches tomorrow will be unusually fine, and the doral decorations exquisite.
